

Home is where I want to stay...

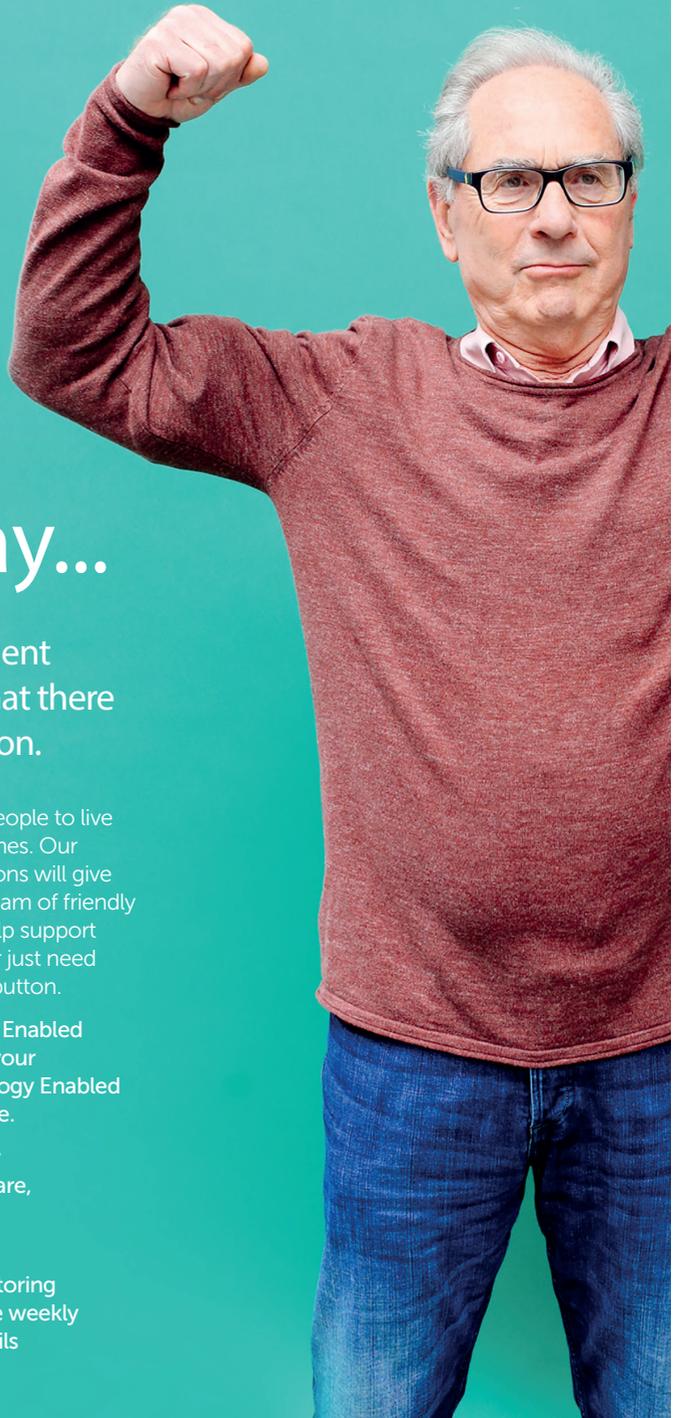

Safe, comfortable, independent
Confident and reassured that there
is help at the touch of a button.

NRS Healthcare is helping thousands of people to live safely and independently in their own homes. Our everyday Technology Enabled Care solutions will give you, or a loved-one, access to a trained team of friendly professionals who are on hand 24/7 to help support you, should you feel unwell, vulnerable, or just need someone to talk to - all at the touch of a button.

And as we have a specialist Technology Enabled Care Team in West Sussex to answer all your questions, who better to discuss Technology Enabled Care options further, than NRS Healthcare.

It may be that you are eligible for short or long term funded Technology Enabled Care, please speak with your health and social care professional for more information.

If not, then you can get products, a monitoring and responder service all for a reasonable weekly charge, please our website for more details

How can Technology Enabled Care help me?

By providing peace of mind, reassurance and greater independence.

During difficult times, it can feel like your independence is being taken away. Technology Enabled Care can bring it back for you; whether that's giving you greater confidence in your own home and garden or providing that little bit of extra support if you want to go out.

Technology Enabled Care will allow you to live more independently in your own home for longer. It gives you and your family or carer that little extra peace of mind, knowing that someone is available for you 24 hours a day, 7 days a week, 365 days of the year.

There are products to suit all needs and all situations.

We can provide free advice from specialist advisors to help you find the right combination of equipment, so you can maintain the lifestyle you want.

We provide the equipment, monitoring and responder* services for one reasonable weekly payment, as well as a small installation fee.

You can choose from a range of options, which will alert the monitoring centre:

If you've fallen

If you haven't returned to your bed or chair

If you've gone out and left the door open

Equipment to help if you want to go out in the garden or get out and about.

We'll come and fit your products at a convenient time for you. We'll make sure you're happy and confident about using them before we leave. You can always call us if you have any more questions. We'll come and service your equipment once a year and you can contact us at any time if you have any concerns.

Call us on **01903 948200**
